

Roll On/Roll Off

JWT Waste operates a series of open and enclosed high capacity, Roll On/Roll Off containers for large retail operations, manufacturing plants, construction sites and other areas where waste is produced on a huge scale.

Delivered as and when required, or on a regular contract basis, the containers are the ultimate long-term, high-capacity waste containment solution.

JWT guarantees that all collected waste is transported safely and treated in an environmentally conscious manner at our specialist Recycling Centre, with all necessary paperwork completed on behalf of the customer.

“Cost effective high capacity waste containers”

The Containers

Available in sizes up to 40 cu yd, the containers are designed to accommodate substantial volumes, reducing the need for frequent emptying, keeping costs down to a minimum.

Our enclosed, lockable Roll On/Roll Off systems also reduce the risk of fire and are ideal for the secure containment and safe removal of dangerous materials.
